

MEREDITH MARCINKO

Front-End Web Developer | UX/UI Designer | Digital Content & Web Coordination

Portland, OR (Open to Remote) | mere.marcinko@outlook.com | (541) 913-1208 | linkedin.com/in/meredith-marcinko

SUMMARY

Front-end focused web professional with a B.S. in Computer Science, a Communications minor, and a UX/UI Design certificate. Experience spans website operations and CMS management, front-end development (HTML, CSS, JavaScript), and UX research and design. Comfortable moving between hands-on build work and stakeholder-facing coordination, translating between technical and non-technical teams, and taking ownership of projects from planning through launch.

CORE SKILLS

Web & Development: HTML, CSS, JavaScript, Adobe Dreamweaver, NorthStar CMS, GitHub

Design & UX: Figma, Wireframing & Prototyping, Usability Testing, User Research, Information Architecture

Collaboration & Coordination: Cross-departmental stakeholder management, QA testing, process documentation, project ownership

Tools: Microsoft 365 (Excel, Outlook, Teams), Slack, Zoom

EXPERIENCE

Website Operations Coordinator | **Multnomah Athletic Club** *Portland, OR* • *Sept 2025 – Present*

- Coordinate with 20+ department leads to audit web content, gather staff workflows, and identify member-facing pain points.
- Build and edit HTML, CSS, and JavaScript page components; create wireframes for new pages in Figma.
- Manage day-to-day content and structure in the NorthStar CMS, including a cleanup that removed 94 outdated pages and 150+ outdated images.
- Partner with a cross-functional steering committee to review feedback and iterate on design and functionality.
- Test site updates, including the Connect4 system, and document bugs and content discrepancies before release.

iOS Mobile App Developer | **OpConnect** *Portland, OR (Remote)* • *June 2021 – Sept 2022*

- Served as lead iOS developer, translating stakeholder requirements into functional updates across all client versions of the app.
- Identified and resolved usability inconsistencies across iOS versions to keep the experience consistent for all users.
- Proposed and implemented product improvements based on analysis of user behavior and pain points.

Lifeguard Coordinator | **Multnomah Athletic Club** *Portland, OR* • *April 2025 – Present*

- Coordinate member-facing schedules and staff logistics for the Aquatics Department.
- Lead monthly staff trainings and streamlined the process for scheduling and certifying Red Cross classes.
- Contribute to the Aquatics Leadership Team on process consistency and member experience.

SELECTED UX/UI PROJECT WORK

- Community Vision — Morse Code Accessibility Website: Collaborated on a five-person team building an accessible website teaching Morse Code to children with disabilities, focusing on screen-reader support and alternative input devices.
- Santa Clarita Art Association Website Redesign: Led user research (interviews, surveys) and usability testing as part of a team redesign focused on event sign-up and community engagement.
- West Linn City Website Redesign: Applied heuristic evaluation, cognitive walkthroughs, and usability testing to simplify navigation on a government website.
